

## From Manual Records to Smart Monitoring

Are your skilled staff still manually recording room, fridge and water temperatures on paper? Now is the time to say goodbye to those outdated methods.

### It's time to go digital

- Improve resident satisfaction and well-being
- Get real-time alerts
- Increase consistency and reliability of temperature monitoring
- Save staff time for more value-added tasks

“ We are delighted with the support of the team at GlobalDWS who installed sensors throughout our Home to help us expedite data collection and notify us immediately if there are any areas that need adjustments to ensure resident safety and comfort and also fulfill our legislative requirements. ”

Giving  
Hope  
Today

GlobalDWS helps you streamline data collection. Powered by the Internet of Things (IoT), connected sensors give you instant visibility to your building data – enabling faster decision-making, healthier spaces and happier residents and staff.

Reduce staff time spent checking and recording temperatures manually. Connected sensors provide real-time environmental insights and ensure utmost accuracy and reliability in your compliance reporting.

# Most popular environmental health and safety sensors used in the LTC/health sector:

## **Temperature and Humidity Monitoring:**

Ensure comfort and comply with O. Reg. 246/22

## **Water Temperature and Leak Detection:**

Ensure optimal temperatures for bathing; prevent water damage and mold growth

**Air Quality Sensors:** Monitor CO2, VOCs, and PM2.5 for healthier indoor air

**Fall Detection:** Improve resident safety and timeliness of reporting

**Cold Storage Monitoring:** Protect vaccines, food, and medications

**Occupancy & Security Monitoring** Track usage patterns and detect intrusions

**Computer Vision:** Detect motion, monitor behavior, or count occupants

## GlobalDWS offers fast, scalable and reliable environmental monitoring in LTC

GlobalDWS offers a range of sensor packages starting from as little as \$5,000. We invite you to take the first step in your technology adoption journey with a smart workplace that benefits residents and staff!
